

THE **ART** OF HIGH
PERFORMANCE
FEEDING AND
ORIENTATION
SYSTEMS

WHO WE ARE

SARG operates in the industrial automation field.

We focus on the field of automatic feeding and piece orientation system in the **packaging, filling, bottling, assembly and printing industry of plastic or biodegradable items.**

Our team is made up of experts in the design and production of customized and innovative feeding solutions, tailored to the specific request of our customers.

Our focused approach takes care of the customer needs. Our close contact with our customers in developing application specific solutions has allowed us to acquire a considerable experience to meet expectations and to achieve reliable feeding and orientation solutions in specific sectors: **Home and Personal care, Pharmaceutical, Cosmetic, Food, Coffee, Beverage, Electrical and mechanics.**

We continuously develop our products allowing our customer to increase performance and process reliability. Testing operations are carried out following specific parameters simulating where possible the machine operations to guarantee along with a quick and efficient technical service a high performance over time.

Please contact us for your feeding needs. We are eager to show you the full range of our solutions to your orientation requirements.

PASSION AND PRODUCTION

We are manufacturing vibratory systems (Circular and linear vibratory motors, sorting bowls and feeding channels), high performance disc orientors for caps, spray pumps, dispenser, bottles, aroma caps; centrifugal feeder for caps and all rotationally symmetric parts), a wide range of Elevators, vibratory and belt hoppers from 10 to 3000 liters, as well as step feeders.

MODULAR DESIGN

Our machines are totally customized to meet the production requirements of our clients and accurately developed throughout the whole design, manufacturing phases as well as during the installation at the requested site.

USE

Our machines are designed to feed various types of plastic or similar parts such as:

Caps of every type, closure systems, capsules, bottles, Dispensers, Spray pumps, assembly parts for medical, electrical or closure systems.

-  CAPS OF EVERY TYPE
-  BOTTLES
-  CAPSULES
-  DISPENSERS
-  SPRAY PUMPS
-  ASSEMBLY PARTS FOR MEDICAL
-  ELECTRICAL OR CLOSURE SYSTEMS

**GEARED FOR AN
ORIENTED FUTURE**
